OBJECTIVE

Dedicated and results-oriented strong foundation in Python,Java and Nodejs. Seeking to contribute my software development skills, attention to detail, and commitment to producing high-quality code. .

EDUCATION

Bachelor of Engineering in Information Technology ,
D Y Patil College Of Engineering Akurdi
CGPA - 9.09

2019-2023

SKILLS

Programming Languages:	Python (Programming Language), Java,Nodejs
Database Management:	MySQL, MongoDB
Web Development:	HTML, CSS, Django, JavaScript,RESTful APIs
Version Control:	Git
Familiarity With :	Docker,AWS
operating systems :	Linux
Software Development Methodology:	Agile SDLC
Other skills:	Data Structures and Algorithms,Networking Concepts,SDLC,OOPS
Soft skills :	Problem Solving, written and verbal communication, Quick learner

EXPERIENCE

Software Development Intern
Elite Softwares

Aug 2022 - Oct 2022
Pune

- Collaborated within an Agile team to build a robust web application using Django framework.
- Demonstrated versatility in both frontend and backend development, contributing to the full-stack lifecycle.
- Assisted in troubleshooting, optimizing code, and enhancing overall application performance.

PROJECTS

Automated Skin Disease Prediction Using Deep Learning.

Tech Stack: HTML, CSS, MySQL, Django, Python, Javascript, Deep Learning, Numpy, Tensorflow

- Engineered a robust deep learning solution for accurate skin disease prediction from images.
- Achieved outstanding model accuracy of 97.05 with 91.17 validation accuracy.
- Implemented user authentication, disease info dissemination, chat support, and doctor recommendations.

Caloriefy - Calorie Tracking Web App

Tech Stack: HTML, CSS, MySQL,Django, Python, Javascript

- Developed a Django-based web app for monitoring and managing daily calorie intake..
- Empowers users to effortlessly track dietary habits, promoting healthier lifestyles.

Newsapp - Personalized News Aggregator App

Tech Stack: Python, Django, HTML, CSS, JavaScript, API Integration

- Built a Django-powered news aggregator app that gathers news from multiple sources via API calls.
- Allows users to customize their news feed based on their interests and preferences.
- Enhances the news consumption experience by providing relevant and personalized content.
